**Detailed Narrative of what is requested that the City of Weiser provides:**

I will need barricades to block of state street at each Intersection and also to block off the alleyways. Additional garbage cans would be beneficial if available. I have visited with all business owners that this would affect and all have given me permission to have the street blocked for the event. On Friday the 4th I would need to have the streets blocked at 6 am in order to allow people to set up. I am happy to put out the barricades if they are dropped off the day before.
